

Non Technical Session 1 BUCKLE UP

10-10-2019

Abstract

The first non technical session was held on 9th of October 2019. The session was held at Seminar Hall. Staff-in-charge Vinod sir as well as lab assistant Rahul sir was also present. The full team Elacsta members endeavoured make the event possible.

- Public addressing

- Small games

1 Objectives of the Session

The objective of the session is to improve the self confidence of students. Self confidence can change our whole life to the better while lack of confidence will definitely have a negative effect on our social relations, career, achievements and even our mood.

5 Conclusions and Suggestions

The Buckle Up was the first non technical session. Attendees were able involved in the various tasks to develop their self confidence. Attendees were unable to do the tasks completely because of communication issues. So next session should concentrate on improving communication skills.
